# The Ultimate Penetrating Lubricant

**FREE-EZE™** represents the latest breakthrough in penetrating lubricant technology. By combining rapid freezing action with an advanced, rust eating formula, seized or rusted parts are easily released. Shrinkage of sprayed parts quickly breaks open micro fine fissures allowing the lubricant to easily penetrate even the toughest rust.

The innovative XA-17™ Rust Eating Technology then dissolves and converts rust making the job a snap and future maintenance easier as well. Ideal for use in the most demanding penetrating lubricant applications including rusted manifold bolts, exhaust flanges, industrial, marine, farm, or other outdoor exposed equipment.
