

Nonsterilant - Nonselective

B00570 Glypho Kill 2

- Water-Based Herbicide Ready-to-Use
- Non-sterilant/Non-selective
- 2% Glyphosate
- Ready-to-Use Gallon Treats Up to 7,100 Ft.²
- Nonflammable

B00572 Glypho Kill 18

- Water-Based Herbicide Concentrate
- Non-sterilant/Non-selective
- 18% Glyphosate
- Dual Purpose: Aquatic & Land Application
- Nonflammable

B00588 Weedtrol VF

- Water-Based Herbicide Concentrate
- Non-Sterilant/Non-Selective
- Dual Purpose: Aquatic & Land Application
- 1.85% Diquat Dibromide
- Dilute 1:20 with Water for Land Use

B00589 Weedtrol CF

- Water-Based Herbicide Concentrate
- Non-Sterilant/Non-selective
- Dual Purpose: Aquatic & Land Application
- 4.35% Diquat Dibromide
- Dilute 1:20 for Land Use

Nonsterilant - Selective

B01587 C-Lex II

- Water-Based Herbicide Concentrate
- Non-Sterilant/Selective
- Effective on a Wide Variety of Broad Leaf Plants
- Triple Dimethylamine Salt Formula
- Variable Dilution for Weeds to be Controlled

Notes:

- State sales restrictions exist - check state availability prior to purchase.
- Sterilants prevent all new growth and are usually effective for one growth season. Nonsterilants are typically inactivated upon contact with soil.
- 1 acre = 43,560 ft.²
- For all herbicides, review Label for specific dilutions, usage recommendations & restrictions.

Herbicides

Sterilant - Nonselective

B00577 Repco Kill LF

- Solvent-Based Herbicide Ready-to-Use
- Sterilant/Non-Selective
- Ready-to-Use Gallon Treats Up to 1,100 Ft.²
- 1.09% 2,4-D Ester with 0.61% Bromacil
- Triple Threat - Two Actives Plus Solvent

B00578 Repco Kill III

- Solvent-Based Herbicide RTU
- Sterilant/Non-Selective
- Ready-to-Use Gallon Treats Up to 1,100 Ft.²
- 1.09% 2,4-D Ester with 0.98% Bromacil
- Solvent-Based; Our Most Effective Sterilant

B00582 2 Plus 2

- Granular, RTU, Systemic Kill (Roots Or Foliage)
- Sterilant/Non-selective
- Use 0.5 to 0.9 Pound Per 100 Ft.²
- Dual Actives: 2% Bromacil & 2% Diuron
- Time-Released Through Root Absorption

B00584 Ex-It

- Solvent-Based Herbicide Concentrate
- Sterilant/Non-Selective
- Remains Effective Even After Rainfall
- 2.3% Bromacil in Phytotoxic Oil for Rapid Penetration
- Dilutes 1:9 with Water

B00593 Weed-A-Cide CF

- Solvent-Based Herbicide Concentrate
- Sterilant/Non-selective
- Systemic Kill
- 4.66% Prometon
- Dilutes 1:10 with Water, Gallon Concentrate Treats Up to 1,200 Ft.²

B00594 Ex-It CF

- Water-Based Herbicide Concentrate
- Sterilant/Non-selective
- Systemic Kill
- 2.75% Bromacil Salt
- Flexible Dilution Rates with Water for Large Area Application
